

Did you know Nebraskans pay TWICE the property tax rate of CALIFORNIA???

# TRUE NEBRASKANS

PROPERTY TAX RELIEF UNITES EVERYONE!

## THANK YOU FOR YOUR SUPPORT

Effective today, April 13, 2020, TRUE Nebraskans, LLC, has formally suspended its petition drive for the 35% Solution. For the last two years, our intent has been to drive TRUE property tax reform for every Nebraskan, via a 35% property tax rebate. The concept is sound; the need is greater now than even when we began; the solution is long past due. Through this drive, the people would do what our elected officials have so long refused to do.

What no one could have anticipated was the arrival of the Coronavirus (COVID-19). The Federal requirements of social distance and limited group gatherings resulted in our request on March 19, 2020, when we asked that all circulators temporarily pause their activity, until the risk was better understood.

The extension of those requirements for an additional 30 days has essentially shut down our entire state. With public gatherings and even personal contact limited, there is no reasonable expectation that we can finish the task, without needless risk to the health and safety of our circulator network and to Nebraskans, in general. As passionate as we all have been, to continue would be irresponsible .

This has been a difficult decision. To have fought so long and hard, with the prospect of success in sight, is one thing. To have worked alongside so many Nebraskans - who have given generously of their time and resources to make TRUE property tax reform a reality - is another. Their generous donations built and equipped a state-wide circulator network. Their relentless effort in collecting signatures has humbled anyone watching.

With Deep Respect and Gratitude to All Who Gave So Much...Thank You.

TRUE Nebraskans
